# History & General Information

---

W.H. Davison, the father of the current president & CEO, founded Davison Oil Company, Inc. in 1950. The firm has grown to include two plants, the first and still today the main office, is a ten acre facility in Mobile, Alabama; the second plant is in El Dorado, Arkansas which is the principal blending, filling and packaging facility and the birthplace of "Pride" our private label product line. Davison Oil Company, Inc. is a recognized leader in the petroleum industry offering numerous national brands, private label Major Brand Anti-Freeze and Pride Lubricant Products as well as contract blending and packaging of private label petroleum lines. Current distribution encompasses 26 states domestically to a customer base including grocers (wholesale and retail), auto parts stores and chains, lube distributors, hardware stores and chains, discounts stores, vehicle sales and service facilities, retail establishments and foreign exports. The management and staff of Davison Oil Company, Inc. are committed to being a low overhead full service company providing quality products at competitive prices and providing professional value added sales and service support to the customers they have the privilege of serving. Over fifty years ago the firm's founder adopted a simple and timeless slogan that we still apply today: "We Appreciate Your Business". These words are still representative of our philosophy and we express our appreciation daily by meeting or exceeding our customer's expectations.

*All Package Sizes Available, Most Popular Items Shown Below*

Pride Passenger Car Motor Oils are formulated to provide engine protection under severe operating conditions. They are blended from select and highly refined base oils compounded to provide protection against wear and corrosion, prevent oxidative thickening and inhibit promotion of engine acids, sludge, and varnish deposits. The multi-grades may be used over a wide temperature range, permitting easier cold weather starting and helps minimize engine friction at start-up. Pride Multi-Grade Oils are recommended for gasoline engines found in passenger cars, light trucks, power boats, motorcycles, and other mobile and stationary equipment including those equipped with supercharges or turbo chargers. By grade, each product will meet the current API License Service Category.

**Exceptional  
Premium Value**

## PRIDE HIGH DETERGENT SAE GRADES 30W & 40W

DESCRIPTION	QUANTITY	PART #
Pride HD 30w	12 quarts / case	1500

Pride Single Grade High Detergent Motor Oils are formulated to provide engine protection under severe operating conditions. Made from select and highly refined base oils compounded to provide protection against wear and corrosion, prevents oxidative thickening, engine acids, sludge and varnish deposits. Pride High Detergent Oils are recommended for gasoline and diesel powered engines where a single grade product is required. In all cases, the manufacturers' lubricant recommendations for API performance category and SAE viscosity grade should be followed. By grade, each product will meet the current API License Service Category.

Pride Single Grade Motor Oil

## PRIDE NON-DETERGENT SAE GRADES 30W & 40W

DESCRIPTION	QUANTITY	PART #
Pride ND 30w	12 quarts / case	1900
Pride ND 30w	5 gallon pail	1810
Pride ND 30w	55 gallon drum	1850
Pride ND 40w	12 quarts / case	2000
Pride ND 40w	55 gallon drum	1950

These oils are for the API non-current service level SA. These are economy motor oils and should only be used in applications specifically requiring this product. As always, consult the equipment manual to determine the appropriate lubricant for any application.

Exceptional  
Premium Value

## PRIDE FLEET HEAVY DUTY SAE 15W40

All package sizes available, most popular items shown here

DESCRIPTION	QUANTITY	PART #
Pride Fleet 15W40 CJ-4	12 quarts / case	3000
Pride Fleet 15W40 CJ-4	5 gallon pail	2910
Pride Fleet 15W40 CJ-4	55 gallon drum	2950
Pride Fleet 15W40 CJ-4	Bulk	2901

A premium-quality, multigrade crank-case oil for all-season use in commercial mixed-fleet engine operations. This product is manufactured from select premium quality base stocks and formulated with the most current V.I. polymer and additive technology to meet performance requirements in all naturally aspirated, turbocharged and supercharged diesel engines as well as all four-cycle gasoline engines. Recommended for service under

all operating conditions where the engine manufacturer specifies this weight multi-grade oil, including newer diesel engines with EGR systems. (By grade, each product will meet the current API License Service Category and requirements as they evolve for heavy duty commercial engines by the major manufacturers.)

## PRIDE FLEET HEAVY DUTY SAE 30W & 40W

DESCRIPTION	QUANTITY	PART #
Pride Fleet HD 30w	12 quarts / case	1500
Pride Fleet HD 30w	5 gallon pail	2610
Pride Fleet HD 30w	55 gallon drum	2650
Pride Fleet HD 30w	Bulk	2601
Pride Fleet HD 40w	5 gallon pail	2710
Pride Fleet HD 40w	55 gallon drum	2750
Pride Fleet HD 40w	Bulk	2701

Heavy Duty SAE Single-Grade crankcase oils are formulated for all diesel, turbo diesel and gasoline engines. These oils are blended from select and highly refined base stocks. They are compounded with detergents, dispersants, wear control elements, anti-oxidants, corrosion inhibitors and a foam suppressant additive. 10w is API Classified as SH oils. SAE grades 30 and 40 meet current API Service Classifications CF, CF-2/SH including API Classifications CD, CD-II, CE. These products meet the performance requirements of MIL-L-2104F (SAE 10w, 30, 40), MIL-L-46152D and conform to all major automobile manufacturers' and automotive/truck diesel engine builder's requirements, including Caterpillar, Cummins, Detroit Diesel-Allison, and Mack Truck. SAE 10w through SAE 30 meet the Allison Type C-3, C-4 transmission performance requirements recommended for hydraulic systems.

All package sizes available, most popular items shown here

## PRIDE MULTI-PURPOSE ATF DEXRON III / MERCON

DESCRIPTION	QUANTITY	PART #
Pride Dexron III / Mercon	12 quarts / case	2500
Pride Dexron III / Mercon	5 gallon pail	2410
Pride Dexron III / Mercon	55 gallon drum	2450
Pride Dexron III / Mercon	Bulk	2401

Manufactured from select, highly refined base stocks and compounded with additives to enhance oxidation stability and thermal resistance, improve low temperature operation, impart specified friction control, improve load-carrying ability, and resist corrosion and foaming tendencies. This product is multipurpose automatic transmission lubrication fluid recommended for O.E.M. performance requirements contained under DEXRON II, DEXRON II-E, DEXRON III, MERCON, and Ford ESP-M2C138-CJ service levels. Meets Ford ESP-M2C166-H or Type A.

*All package sizes available, most popular items shown here*

## PRIDE TYPE A TRANSMISSION FLUID

DESCRIPTION	QUANTITY	PART #
Pride Type A ATF	12 quarts / case	2405

This fluid should be used only in those applications specifying Type A Transmission Fluid. In the blending of this product a red dye is included resulting in a product with a distinct red color which can aid in the determining the origin of a leak in the system where it is used. As always, consult your owner's manual before using this or any product to determine that it meets the specifications required.

## PRIDE TYPE F TRANSMISSION FLUID

DESCRIPTION	QUANTITY	PART #
Pride Type F ATF	12 quarts / case	2600

ATF (Automatic Transmission Fluid) Type F is a premium lubricating fluid meeting the Ford Specification M2C33-F. Recommended for all automatic transmissions requiring Type F fluid.

Pride Transmission Fluid

*All Package Sizes Available, Most Popular Items Shown Below*

## PRIDE POWER STEERING FLUID

DESCRIPTION	QUANTITY	PART #
Pride Power Steering	12 quarts / case	9250
Pride Power Steering	12/12oz case	9240

Pride Power Steering Fluid is formulated from highly refined naphthenic oil to perform in power steering systems. The product is designed to protect power steering systems against pump deterioration by preventing abnormal oxidation, foaming and wear.

## PRIDE BRAKE FLUID

DESCRIPTION	QUANTITY	PART #
Pride Brake Fluid	Gallon	8925
Pride Brake Fluid	12-12 ounces / case	8990
Pride Brake Fluid	12 quarts / case	8950
Pride Brake Fluid	4 gallon / case	8925
Pride Brake Fluid	5 gallon pail	8905

Pride Brake Fluid is recommended for all types of hydraulic brake systems including drum, disc and ABS that require a DOT 3 specification fluid. This product aids in the protection of metal and rubber components against wear and corrosion. It can be mixed with existing DOT 3 fluids.

## LOGGER'S PRIDE BAR & CHAIN OIL

DESCRIPTION	QUANTITY	PART #
Pride Logger's Pride	6 gallons / case	7100
Pride Logger's Pride	55 gallon drum	7120

Logger's Pride Chain Oil is a naphthenic base oil that has been hydro-treated for improved stability. A tack additive has been blended in to reduce sling-off.

**Best Bar &  
Chain Oil On  
the Market!**

### *The History of Logger's Pride Bar and Chain Oil*

The history of Chain Oil began in the 1960's when Gurley Oil Company (West Memphis) introduced a 24/1 quart case of re-refined oil without a tack additive selling wholesale for \$6.00 per case.

In the mid 1960's Hunter Oil in Florida introduced STA-ON in 6/1 gallon cases. STA-ON was a virgin oil with a tackifier additive sold exclusively to chain saw shops at a wholesale price of \$14.00 a case.

In the mid 1970's C-Mac in Tennessee duplicated the STA-ON Formula and sold to both chain saw dealers and oil distributors.

In 1977 Davison Oil Company began buying from C-Mac and later in the same year introduced the private label Sav-A-Chain which was the C-Mac product packaged for Davison Oil Company.

In the early 1980's Jim Yeager, one of the few original C-Mac employees left, resigned to go into business for himself. Jim, with product knowledge and a relationship with Davison Oil Company, blended, packaged and sold Davison the identical formula.

Later in the 1980's C-Mac was sold and Davison's relationship with Yeager Oil grew leading to the 1985 merger of the two firms. The new firm, with years of knowledge and experience in chain oil, introduced Logger's Pride Bar and Chain in 6/1 gallons.

Logger's Pride unique formula is the "Rolls Royce" of the industry. The knowledge gained over the years and a formula different from any in the industry has made Logger's Pride one of the most asked for products of its kind. Its unique formula gives added life to both bar and chain; once experienced, the difference can and will be appreciated.

## PRIDE ANTI-WEAR MVI HYDRAULIC OILS

DESCRIPTION	QUANTITY	PART #
Pride AW 32 MVI	5 gallon pail	0320
Pride AW 32 MVI	55 gallon drum	0330
Pride AW 46 MVI	5 gallon pail	0460
Pride AW 46 MVI	55 gallon drum	0470
Pride AW 68 MVI	5 gallon pail	0680
Pride AW 68 MVI	55 gallon drum	0690

Pride AW MVI Hydraulic Oils are naphthenic base blended with inhibitors that provide excellent oxidation stability, rust protection and demulsibility. This product, commonly chosen for circulation systems, provides protection for piston, gear and vane pumps. The low aniline points of these quality oils help to reduce loss due to seal leaks. It is recommended where anti-wear additives are required or desired.

Exceptional  
Premium Value

## PRIDE ANTI-WEAR HVI HYDRAULIC OILS ISO

DESCRIPTION	QUANTITY	PART #
Pride AW 32 HVI	5 gallon pail	3510
Pride AW 32 HVI	55 gallon drum	3255
Pride AW 32 HVI	Bulk	3201
Pride AW 46 HVI	5 gallon pail	3310
Pride AW 46 HVI	55 gallon drum	3350
Pride AW 46 HVI	Bulk	3301
Pride AW 68 HVI	5 gallon pail	3410
Pride AW 68 HVI	55 gallon drum	3450
Pride AW 68 HVI	Bulk	3401

Pride A/W HVI Hydraulic Oils are premium-quality, anti-wear hydraulic oils with excellent stability characteristics, designed to meet the most stringent requirements of manufacturers and users of hydraulic equipment. These products are characterized by providing rust protection, low deposit formation, rapid release of entrained air, oxidation resistance, low pour points, and good anti-foam properties. They contain an effective anti-wear agent that helps reduce wear in high-speed, high-pressure vane and gear pumps. Recommended where operating pressures may exceed 3000 psi. These hydraulic oils meet performance requirements of Dension HF-0, Vickers M-2950-S, and Cincinnati Milacron P-68, P-69 and P-70.

### PRIDE TRACTOR HYDRAULIC FLUID WITH BPE\*\*

DESCRIPTION	QUANTITY	PART #
Pride Tractor Hydraulic	6 gallon / case	6770
Pride Tractor Hydraulic	5 gallon pail	6750
Pride Tractor Hydraulic	55 gallon drum	6760
Pride Tractor Hydraulic	Bulk	6701

A high quality lubricant designed to meet a wide range of applications as specified by numerous equipment manufacturers. This specially lubricant is formulated with a comprehensive additive package and anti-rust, anti-foam and oxidation inhibitors.

The product is an all season oil that resists thickening in cold weather and thinning in heat. It is compounded with detergents to keep transmissions clean and maintain hydraulic control circuits in perfect working condition while providing excellent protection against seal and pump deterioration. Operators appreciate the multi-purpose application of this premium fluid for transmissions, final drives and hydraulic systems thereby eliminating the requirement to stock multiple products. Pride Premium Tractor Hydraulic Fluid is formulated to current specifications meeting the requirements as a replacement fluid for most major farm and agricultural equipment manufacturers.

**\*\*BPE** (Borate-Phosphate/Esther) Ashless Additive to improve load-carrying, wear protection, thermal and oxidation stability.

### PRIDE R & O HYDRAULIC FLUID

DESCRIPTION	QUANTITY	PART #
Pride R&O Hydraulic Fluid	6 gallon / case	7020
Pride R&O Hydraulic Fluid	5 gallon pail	6950
Pride R&O Hydraulic Fluid	55 gallon drum	7010

A naphthenic base hydraulic fluid blended with Rust and Oxidation inhibitors designed for applications where antiwear inhibitors are not required. As always, refer to equipment manufacturer's manual for specific fluid requirements.

### PRIDE PB-2000 TRACTOR HYDRAULIC FLUID

DESCRIPTION	QUANTITY	PART #
Pride PB-2000	6 gallon / case	6860
Pride PB-2000	5 gallon pail	6850
Pride PB-2000	55 gallon drum	6810

PB-2000 has been field tested and proven to perform in an 'add to' or 'top off' application for a variety of equipment types. This product is blended with refined base stocks, anti-wear additives plus rust and oxidation inhibitors. This product is dyed red in the blending process which aids in leak protection and identification.

In service applications where system drain and refill is required, the recommended product is Pride Premium Tractor Hydraulic Fluid part number 6750.

*All Package Sizes Available, Most Popular Items Shown Below*

## PRIDE GL-1 GEAR LUBE

DESCRIPTION	QUANTITY	PART #
Pride GL-1 90w	6 gallon / case	4930
Pride GL-1 90w	35 lb. pail	4900
Pride GL-1 90w	400 lb. drum	4910
Pride GL-1 140w	6 gallon / case	5430
Pride GL-1 140w	35 lb. pail	5400
Pride GL-1 140w	400 lb. drum	5410

An uninhibited gear lubricant designed for API Service Classification: GL-1. These gear oils are blended from highly refined base stocks that resist oxidation and thickening. Recommended for manual transmissions in cars, trucks and other equipment where API Service Level GL-1 Lubricant is specified.

## PRIDE GL-5 GEAR LUBE

DESCRIPTION	QUANTITY	PART #
Pride GL-5 80w85w90	12 quarts / case	6030
Pride GL-5 80w85w90	35 lb. pail	6000
Pride GL-5 80w85w90	120 lb keg	6020
Pride GL-5 80w85w90	400 lb. drum	6010
Pride GL-5 80w85w90	Bulk	6001
Pride GL-5 85w140	12 quarts / case	6230
Pride GL-5 85w140	35 lb. pail	6200
Pride GL-5 85w140	120 lb keg	6220
Pride GL-5 85w140	400 lb. drum	6210
Pride GL-5 85w140	Bulk	6201

Exceptional  
Premium Value

A multi-purpose sulfur/phosphorus type gear lubricant designed for API Service Classifications GL-5 and MT-1. Compounded with highly refined paraffinic base stocks and additives to ensure extreme pressure characteristics, anti-wear performance, anti-corrosion, rust prevention, anti-foaming and service fill limited slip capability. Recommended for differentials, rear axles, final drives, conventional manual transmissions, manual steering gears, and limited slip top off suitability, in passenger cars and trucks where GL-5 type lubricant is specified. GL-5 Lubes are also commonly specified for heavy duty equipment, both on and off-highway fleets, as well as many industrial and commercial mechanical systems applications.

Pride Purple is a premium Calcium Sulfonate Complex High Temperature Grease NLGI #2. It has superior performance characteristics over a wide operating temperature range, under extreme pressure conditions and is fortified with additives to protect against rust, oxidation and wear. It's excellent resistance to water makes it especially suited for boat trailer wheel bearings and others applications where immersion in water is experienced. This product is suitable for industrial, farming and automotive applications and all disc brake wheel bearing applications including those where disc braking creates extremely high temperatures. This grease is a rich purple color and has a smooth texture. This product meets NLGI Service Classification GC-LB

### PRIDE PURPLE GREASE

DESCRIPTION	QUANTITY	PART #
Pride Purple Grease	10 14oz. tubes/case	7710
Pride Purple Grease	50 14oz. tubes/case	7750
Pride Purple Grease	35 lb pail	7705
Pride Purple Grease	120 lb keg	7716
Pride Purple Grease	400lb drum	7755

Pride Red Lithium EP Grease #2 is a premium multi purpose extreme pressure Lithium 12-Hydroxy Stearate thickened grease possessing excellent thermal and shear stability and excellent water resistance. It is made from a high viscosity base oil making it an excellent choice for heavy loaded applications. Pride Red Grease is fully treated with anti-rust, extreme pressure, anti-wear additives, and oxidation inhibitors. Recommended for automobiles, trucks, buses, farm tractors and heavy duty construction equipment as well as many industrial applications where heavy loads exist and speeds are slow to moderate. It is insoluble and washout resistant. This product meets NLGI Service Classification LB for chassis greases and GB for wheel bearing greases as outlined in ASTM D 4950. This grease has a tacky texture and is a rich red translucent color.

### PRIDE RED GREASE

DESCRIPTION	QUANTITY	PART #
Pride Red Grease	10 14oz. tubes/case	7610
Pride Red Grease	50 14oz. tubes/case	7650
Pride Red Grease	35 lb. pail	7605
Pride Red Grease	120 lb keg	7616
Pride Red Grease	400 lb drum	7655

Pride Blue Multipurpose Grease #2 is a premium lithium grease designed for both automotive and industrial applications. It is formulated from fully refined quality lube stocks, high quality lithium soap, and additional additives to further enhance its lubricating effectiveness.

Pride Blue Grease has excellent temperature stability, will not melt at automotive service temperatures and is readily handled through normal dispensing equipment. This product is recommended for grease lubrication of water pumps, universal joints and regularly lubricated chassis points on cars, trucks, buses, tractors and mobile equipment as well as various industrial applications. This grease has a smooth short fiber texture and is a bright blue opaque color. If your application requires an Extreme Pressure (EP) rated grease or a high temperature rating such as disc brake wheel bearings then use Pride Red EP Grease or Pride Purple Grease.

### PRIDE BLUE GREASE

DESCRIPTION	QUANTITY	PART #
Pride Blue Grease	10 14oz. tubes/case	7510
Pride Blue Grease	50 14oz. tubes/case	7550
Pride Blue Grease	35 lb pail	7505
Pride Blue Grease	120 lb keg	7516

## MAJOR BRAND ANTI FREEZE

DESCRIPTION	QUANTITY
Major Brand Anti-Freeze	6 gallon / case
Major Brand Anti-Freeze	55 gallon drum
Major Brand ELC DEXCOOL	6 gallon / case
Major Brand ELC DEXCOOL	55 gallon drum
Pride Fleet Charge 50/50	55 gallon drum

Major Brand Extended Life Coolant Anti-Freeze is compatible with Dexcool products commonly found in factory fills on late model vehicles of the past ten years. It is a long life product providing for longer change intervals and is ideal for use in applications specifying a Dexcool compatible fluid. The color of this product is orange.

Major Brand Anti-Freeze and Coolant is one of the advanced formula products designed for use in engines from the smallest passenger car through light duty trucks and sport utility vehicles. A unique combination of organic acids and salts plus a special stabilization of the low silicate content (less than 0.1%) makes this Non-Phosphate formulation possible. This true all metal formula provides for optimal operation in severe cold weather as well as the extreme heat of summer. The color of this product is a medium green.

The 50 / 50 Fleet Charge is intended to provide the performance requirements for 50/50 blended ethylene glycol, low silicate, engine anti freeze/coolant concentrate and water for use in initial fill of liquid cooled diesel engines. It is premixed 50%/50% with deionized water and packaged in 55 gallon drums. The color of this product is green.

## MAJOR BRAND GOLD ANTI FREEZE

DESCRIPTION	QUANTITY
Major Brand Gold AF	6 gallon / case
Major Brand Gold AF	55 gallon drum

Major Brand Gold Anti-Freeze is a Passenger Car / Light Truck universal formula that mixes with any current product in any make vehicle. It is long life full strength formula and is a medium gold color. This is an ideal solution allowing the stocking of one product for a variety of applications.

### Did you know?

Traditional antifreeze is green, Dexcool compatible products are orange and commercial extended life products are red. Gold Antifreeze is compatible with all passenger car and light truck formulas in use today

## MAJOR BRAND WINDSHIELD WASHER FLUID

DESCRIPTION	QUANTITY	PART #
Washer Fluid - Summer	6-gallon / case	9612
Washer Fluid - Winter	6-gallon / case	9912

Major Brand Windshield Wash is produced in two different formulations, a Summer Blend which serves as an effective wash product only and a Winter Blend which, as well as an effective washing agent, provides freeze protection to the wash system of a vehicle down to zero degrees Fahrenheit.

## MAJOR BRAND OIL DRY

DESCRIPTION	QUANTITY
Major Brand Oil Dry	40 lb

A Premium Absorbent in granular form suitable for all kinds of liquids including oils, transmission fluids, brake fluids, coolants and greases. Ideal for workshops, garages, industrial applications including deployment at the base of machines to catch non-aggressive fluid leaks and prevent spills from spreading. Also works well as an unscented kitty litter.
